

# Uncompromised Electric Vehicles

Roadster  
and  
Roadster Sport

---

# The world's only electric car - period.

Tesla is the world's only automaker producing and selling highway-capable electric vehicles.

## PERFORMANCE AND TECHNICAL SPECIFICATIONS

---

<b>Body</b>	Hand-crafted carbon fiber
<b>Range</b>	More than 200 miles per charge
<b>Top Speed</b>	125 mph
<b>Battery</b>	Microprocessor-controlled battery pack with 6,831 lithium-ion cells
<b>Motor</b>	288-hp/215kWh, 375-volt AC induction air-cooled electric motor with regenerative braking
<b>Transmission</b>	Single-speed gearbox
<b>Brakes</b>	4-wheel ventilated disc brakes with ABS

# Roadster

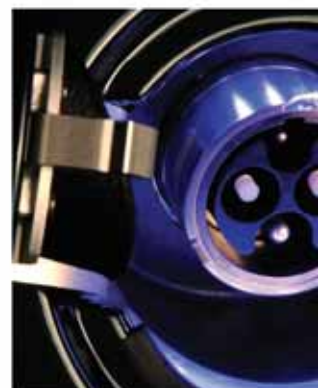

Reaching 0-60 mph in 3.9 seconds, the electric Roadster is engineered to thrill. The cabin combines luxurious styling and intuitive internal controls. The Roadster is powered by a motor which generates 288 horsepower/215kW and 273 pound-feet of torque delivered to the road through a single gear, creating scorching acceleration. Base Model \$109,500

# Roadster Sport

The Roadster Sport accelerates from 0-60 mph in 3.7 seconds. It adds 10-way adjustable shocks, three-way adjustable anti-roll bars and forged alloy wheels. A hand wound stator with maximized winding density and unique firmware produces 295 pound-feet/400Nm of torque. It features "Roadster Sport" badging on the doorsills, rear deck, and under the rear hatch. Roadster Sport Upgrade \$19,500

# FEATURES AND OPTIONS

## Interior Features and Options

For a solid interior please choose one of the primary colors or microfiber option. Please note Saddle is only available as a primary option if executive or carbon leather interior upgrades have been selected.

9 interior colors are available as accent colors.  
Accent colors may be mixed with the primary colors for a customized look.

Premium leather, microfiber, executive or carbon leather packages are available at additional cost.

# OWNING A TESLA ROADSTER JUST GOT EASIER

## Tesla Mobile Service Rangers

### Providing service anywhere

The Roadster is already one of the most convenient cars to own because you never need to take a detour to a gas station. Additionally, the Roadster requires much less routine service than a car with a traditional internal combustion engine. It does not need regular oil changes, smog checks, or exhaust system work. We recommend a standard service and diagnostic inspection once a year or every 12,000 miles (whichever comes first).

The Tesla Ranger mobile service team is taking the auto service experience to a new level. Our Rangers now make house calls anywhere in the United States or Canada. Tesla owners can upload data from their Roadster on a USB memory stick, allowing us in many cases to diagnose and remedy problems before ever looking at the car. When maintenance or service is required, you simply schedule a Ranger to service the car at your home or office.

## Tesla Motors Leasing Program

### A smart choice just became a no-brainer.

A Roadster lease provides significant benefits beyond a traditional lease. The relative low cost of electricity vs. gasoline and the low maintenance needs of Tesla's electric motor as compared to an internal combustion engine add to the benefits of leasing a Roadster over an old-fashioned car. Cost savings compared to a similar gas-powered car can be up to \$131/month.

Leasing a car provides added flexibility and peace of mind. As technology evolves, you will remain on the cutting edge of electric mobility advancements. For more information visit [www.teslamotors.com/leasing](http://www.teslamotors.com/leasing).

## Finance Your Roadster Today

### Financing from Bank of America, N.A.

Financing from Bank of America, N.A. makes it even easier for you to bring home a Roadster. You may be eligible for financing of up to **75% of the total purchase price**.

Thanks to financing from Bank of America, N.A. the Roadster's monthly payment plan is similar to those for other premium sports cars. For help with your loan, please contact any of our dedicated Sales Officers by calling 1-800-721-9654, option 1, extension 5000.
